## Product specification

Stilo XS  
Stilo FD

# Connectable frame holders

## Stilo - XS

The elegant Stilo XS will focus all attention on your eyewear collection. Using stainless steel or white temple support rods you can easily create long horizontal lines that create a clear overview of your collections. They can be mounted directly on a panel. Stilo XS is available in white and in transparent with soft comfort finish for the nose bridge.

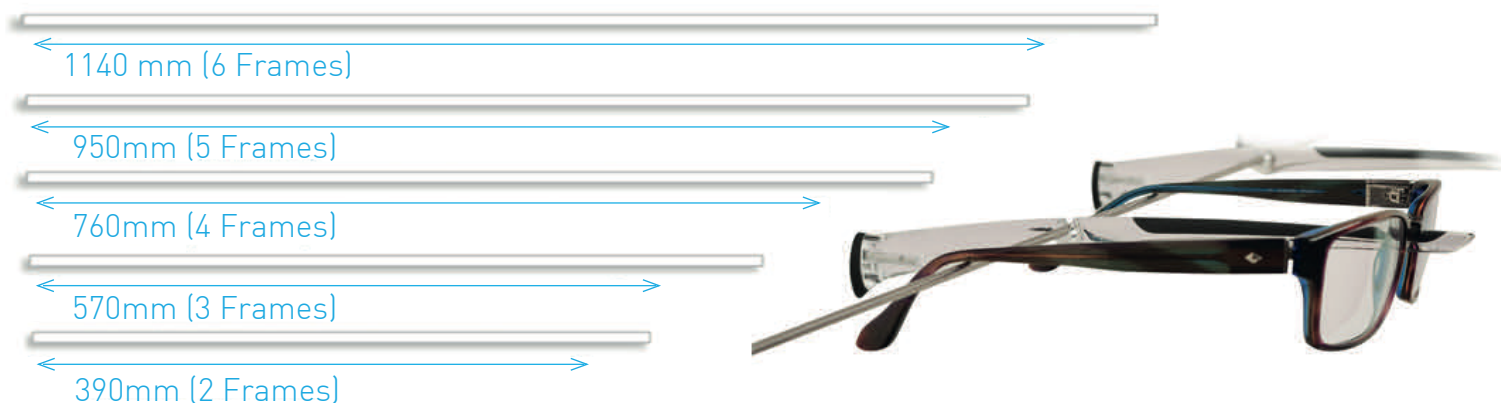

## ACCESSORIES

### WHITE TEMPLE SUPPORT RODS

Create horizontal rows using the temple support rods. Available from 2 to 6 positions wide

### STAINLESS STEEL TEMPLE SUPPORT RODS

Create horizontal rows using the temple support rods. Available from 2 to 6 positions wide.

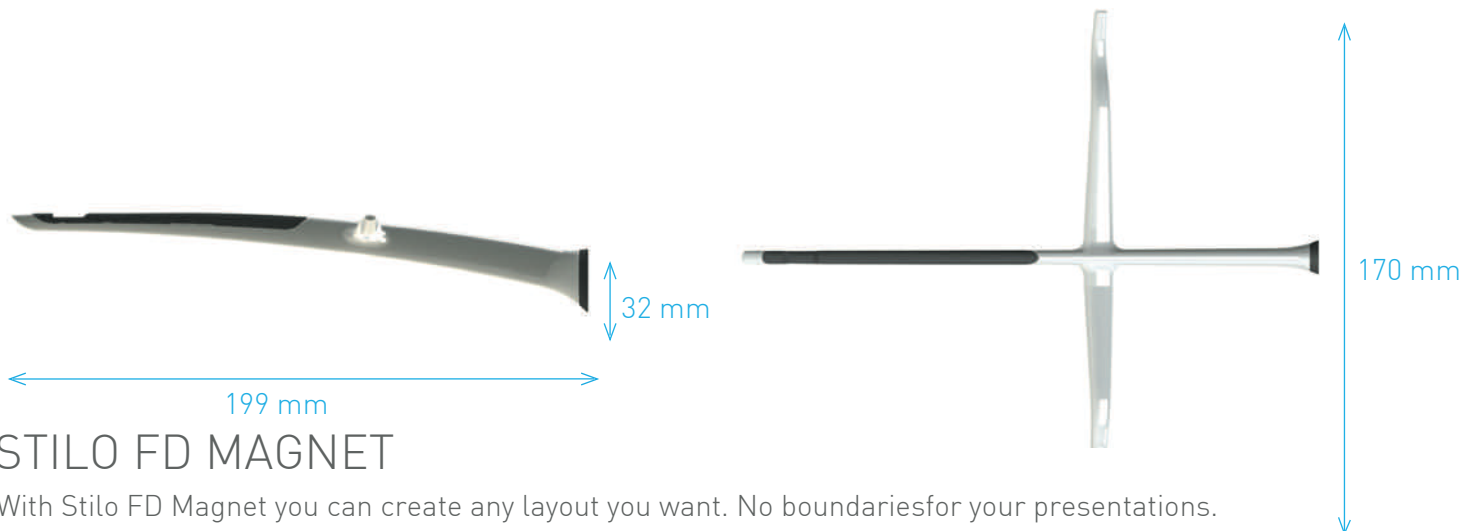

# Individual frames holders

## STILO FD & STILO FD MAGNET

Use the Stilo FD to create exclusive frame presentations. Easy to create an eye-catching feature with individual or multiple frames. Available in white and in transparent. The magnetic version of the Stilo FD offers optimal flexibility. Highlight small groups or specific colors, trends, brands or other themes.

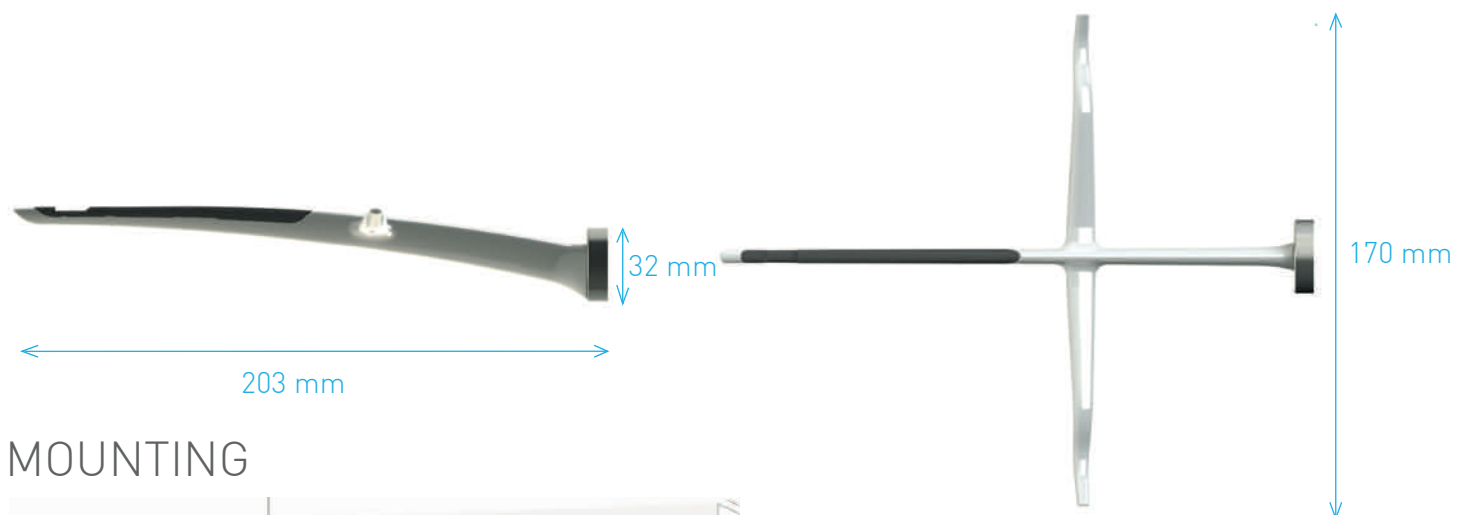

### STILO FD

Aiming to put your frames in the spotlight, we have chosen two neutral colours that will focus all the attention on the frames. Stilo FD frame holders are fitted to the wall by a special mounting peg which provides easy assembly on any solid surface. The rubber gasket ensures a stable presentation and avoids putting pressure on the surface during assembly, whilst the stabilizing pin ensures the correct fixed position.

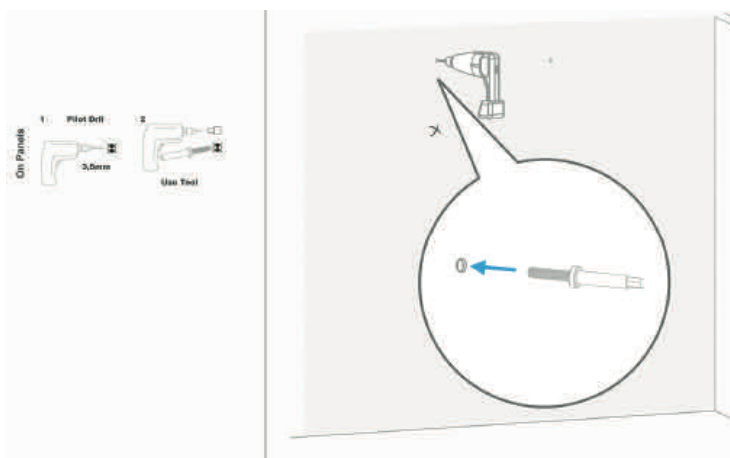

### STILO FD MAGNET

With Stilo FD Magnet you can create any layout you want. No boundaries for your presentations.
